KUMAR M U

DATA ANALYST | MIS & BI REPORTING | OPERATIONS ANALYTICS

Bangalore, India | +91 9353201774 | kumarkumarmu@gmail.com | linkedin.com/in/kumar-m-u-2b7bb022a/

PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on training and internship experience in data cleaning, validation, ETL, MIS reporting, KPI tracking, and dashboard development. Skilled in Advanced Excel, SQL, Power BI (DAX and Power Query), and Python (Pandas, NumPy), with experience organizing data from multiple sources and presenting trends through management reports and dashboards. Interested in applying data quality, reporting, variance-analysis, and operational analytics skills to support service performance, resource utilization, and data-driven decisions.

CORE SKILLS

Reporting & Operations Analytics	MIS reporting, KPI tracking, management reporting, trend analysis, operational performance analysis
Data Quality & ETL	Data cleaning, data validation, data quality checks, data modeling, ETL, exploratory data analysis
BI & Visualization	Power BI, DAX, Power Query, dashboard development, Tableau, data visualization
Excel	Advanced Excel, PivotTables, VLOOKUP, XLOOKUP, INDEX-MATCH, conditional formatting, VBA macros
SQL & Python	SQL joins, CTEs, subqueries, aggregations, window functions; Python, Pandas, NumPy
Professional	Attention to detail, problem-solving, critical thinking, communication, stakeholder collaboration

PROFESSIONAL EXPERIENCE

Data Analyst Intern | ExcelR Solutions

Sep 2025 – Dec 2025

- Developed ETL workflows and analytical reports using SQL and Python to support MIS reporting, data quality validation, and business decision-making.
- Designed and maintained Power BI dashboards to visualize management KPIs, including sales trends and customer engagement.
- Used DAX and Power Query for data transformation, modeling, and reporting to streamline reporting workflows and reduce manual effort.
- Automated repetitive reporting tasks using Advanced Excel formulas and VBA macros, helping improve processing efficiency and reduce manual errors.
- Performed data cleaning, testing, and validation on datasets to support accurate and reliable reports and dashboards.

PROJECTS

Olist E-Commerce Data Analysis

- Cleaned and combined customer, order, and product data using SQL, Python (Pandas), and Excel to create a unified analysis dataset.
- Used data modeling and exploratory analysis to examine sales, customer retention, product performance, and purchasing trends.
- Built a Power BI dashboard to track weekday versus weekend sales, Average Order Value (AOV), and review score by delivery days.
- Created DAX measures to analyze repeat purchase rate and product performance trends for management reporting.

EDUCATION

Bachelor of Engineering in Information Science and Engineering | DonBosco Institute of Technology, Bangalore, India

2021 – 2025 | CGPA: 8.2

CERTIFICATIONS

- Data Analyst Course Completion Certificate – ExcelR Solutions (June 2025 – Nov 2025)
- Internship Project Certificate – Data Analytics, ExcelR Solutions (Sep 2025 – Dec 2025)

ROLE-RELEVANT ALIGNMENT

Relevant transferable strengths for this role include data aggregation from multiple sources, data hygiene and validation, KPI/dashboard reporting, trend analysis, and reporting automation. Direct experience with physical security systems (Access Control, CCTV, IDS), incident response metrics, Statement of Work cost caps, and security-vendor operational data is not stated in the source resume, so these have not been represented as existing experience.
